*2 Yr. Seedlings (2-0) 0-3 inches	----	\$1.15	\$2.60	\$13.00

* We consider seedlings under 2 or 3 inches too small for field planting and we think that they should be bedded out where they can be watered, shaded and weeded for about two years, they are small due to over crowding in the seed bed, but have good root systems and grow well when transplanted and given room.

EXPLANATION OF PRICE LIST:
"T close" indicates close transplants (that is the result of small 2-year seedlings that have been root pruned and transplanted close to-gether and grown for two years "(2-2) the first number indicates the number of years in the seed bed the second number indicates the number of years in the transplant bed.
